

### REMARKS

Reconsideration of this patent application is respectfully requested in view of the foregoing amendments, and the following remarks.

The amendments to this patent application are as follows. Dependent claims 3, 10-13, 15-16, and 20-21, were indicated as containing allowable subject matter. Thus, claims 3, 10, 11, 15, 20, and 21 have been amended to be rewritten in independent claim format, including all of the limitations of the base claim and any intervening claims. Thus, these claims should be allowed.

In addition, claims 2, 4, 7, 8, and 9 have been amended to now depend from allowed claim 3. Also, claim 14 has been amended to now depend from allowed claim 11. Claim 17 has been amended to now depend from allowed claim 15. Also, claim 22 has been amended to now depend from allowed claim 21. Rejected claim 24 has now been cancelled.

Because all of the claims rejected over prior art have been cancelled, and since all of the remaining claims have been indicated as being allowable, the present claims 2 to 23 are all now allowable.

For all the above reasons, the present invention, and all the claims, are not anticipated under 35 U.S. C. 102, but are patentable under 35 U.S.C. 103, over all the prior art applied by the Patent Examiner. Withdrawal of these grounds of rejection is respectfully requested.

Because there are now a total of 6 independent claims, enclosed is a check in the amount of (3 X \$105.00) \$315.00 to pay the U.S.P.T.O. fee for adding 3 extra independent claims, in addition to the 3 originally paid for independent claims for a Small Entity.

The Commissioner of Patents and Trademarks is hereby authorized to charge any additionally required fee, or to credit any overpayment, to Deposit Account No. 03-2468.
